

PGY-3

Lewis Z. Leng M.D. graduated from the University of California, Berkeley with a B.A. in Molecular and Cell Biology with highest distinction in general scholarship, certificate of distinction, and departmental honors in 2001. He was a 21st Century Scholar at the University of Pennsylvania School of Medicine, receiving his medical degree in 2006. At the University of Pennsylvania, he was elected to AOA and was awarded a Howard Hughes Research Training Fellowship. He spent a year investigating immunotherapy and interstitial amyloid-beta metabolism in murine models of Alzheimer's disease. He began his neurosurgical training at Cornell in 2006.
